Projects Portfolio: richardwilleportfolio.github.io/

Summary

Final year Graduate Mechanical Engineering student at the University of Texas at Austin. I turn concepts into deliverable designs through the synthesis of CAD, analysis, and fabrication methods. I have demonstrated this through industry experience at Raytheon on the special tooling team and university-based practical projects.

Education

Integrated Master of Science in Mechanical Engineering

May 2027 (Expected)

The University of Texas at Austin

- Thesis Track in Dynamic Systems and Control

Bachelor of Science in Mechanical Engineering

May 2026

The University of Texas at Austin

- UT Distinguished College Scholar (Top 4%) for 2024, 2025, 2026
- GPA: 4.0/4.0

Experience

Raytheon - McKinney, TX

May-Aug 2024 | Jun-Aug 2025 | May-Aug 2026

Special Tooling Team Intern

- Received Achievement Award for my presentation on Tooling Projects that Boosted Workplace Safety Standards to upper management.
- Participated in a multi-discipline team to design, procure and build custom special tooling that supported assembly and testing of Raytheon products.
- Engaged with program engineers, program management, and operations leadership to define tooling requirements.
- Created models and industry-standard drawings in Creo.
- Troubleshooted, repaired, and maintained production tooling.

Lifeguard/Lifeguard Instructor

Apr. 2021 - Aug. 2023

City of Plano – Plano, TX

- Surveilled patrons and administered proper first-aid care when required.
- Interacted with patrons to resolve conflicts arising from rule-breaking and arguments.
- Conducted on-the-job training sessions to teach and demonstrate techniques and skills.

Activities & Clubs

- Longhorn Band Section Leader: Fall 2025-present
- Longhorn Band Student Association Sports Coordinator: Fall 2023-Spring 2025
- Longhorn Band and Pep Band Member: Fall 2022-present
- UT ASME Member: Fall 2022-present
- Boy Scouts of America Eagle Scout

Skills & Attributes

- CAD: Creo and Solidworks
- 3D Printing (FDM/SLA)
- Laser Cutting
- MATLAB, Python
- Manual Shop Tools
- GD&T Standards (ASME Y14.5)
- Adaptability to Constraints
- Effective Leadership
